New Draft Regulations.

Medical Advisory and Legal Boards for the draft has been approved. There are 24 Medical Boards in the state and they are made up with regard to convenience to hospitals, and they are at the service of local boards for re-examination of registrants, either on their own motion, that of the board or the agent of the government.

Powell is in the 17th District Medical Board which embraces the counties of Clark, Montgomery, Bath, Rowan, Morgan, Menefee and Powell. The doctors to be in charge are: J. F. Doyle, E. R. Cole and A. D. Guerrant, all of Winchester, which city is the seat of the board, and where is located a hospital.

Each county has a Legal Advisory Committee. All lawyers are expected to volunteer their services to assist men in filling out their questionnaires and perfecting their appeals. It will designate a lawyer to be present during examination of called men and assist the registrants in understanding the draft and meeting its requirements.

Now In Canada.

Ed C. Tracy, son of F. P. Tracy, telegraphed his father in Clay City last week from Halifax Nova Scotia, where he is temporarily stationed. Ed is now a soldier from Canada and has seen service in France. Just why he was in Halifax the telegram did not state. The telegram was only a private message to his father.

Splendid Statement.

The Clay City National Bank, responding to the call of the Comptroller of the currency, has another one of their splendid statements in this issue of the Times. During these prosperous times no institution is more flourishing than this bank. Safety and efficiency are watch words with the officers.

Buys Another Farm in Montgomery.

Mr. Robert Lockridge recently sold to Mr. John W. Williams, of Stanton, a farm of 109 acres, located near Spencer, this county, for \$140 an acre. Possession will be given March 1st. The farm is one of the nicest improved places in that section.—Mt. Sterling Gazette.

Christmas.

It is less than three weeks until Christmas, and it is everywhere said, "do your shopping early." Likewise do your renewing of your subscription to the Times early and begin the new year with a square account with the home publisher.

In South Carolina.

Edmon Burgher, young son of the editor of this paper, is now working in the Marine's printing office at Paris Island, S. C. He has been permanently transferred to this place.

J. B. Eaton has bought a new corn shredder. It does fine work but the power he has attached is a little light so very best work that the machine is capable of doing cannot be expected.

Thrift Stamps.

America's newest plan for raising needed funds and encouraging habits of thrift went into operation Tuesday morning with the opening of sales of savings stamps and certificates at post-offices and banks. The campaign is to last for a year and two billion dollars is expected to be raised. It is apportioned by states and counties, and about \$20 for each man, woman and child is the allotment. Kentucky's share is \$48,500,000 and Powell's share will be \$125,000.

The smallest unit in this savings plan is the thrift stamp which costs 25 cents; the largest is a savings certificate which costs \$2.40 and is redeemable in five years at \$100, at the rate of 4 per cent interest compounded quarterly.

Christmas Seals.

Those who have seen the new Red Cross Christmas Seal agree that it is one of the most beautiful and artistic stamps that has ever been used in the fight against tuberculosis.

The Seal is printed on glazed paper. The design is simple but extremely artistic and appropriate. Santa Claus has been superseded by the Christmas tree. The tree is a Juniper, laden with snow, with a white shield in the centre bearing the Red Cross that has become so familiar.

The words "Merry Christmas" and "Happy New Year" are printed on either side of the stamp in red ink, and the figures "1917" and the words "American Red Cross" appear at the top and bottom of the Seal.

Can we be Excelled.

By taking notice of the statements of Powell county's two banks, which appear in this issue of the Times, it will be seen that the combined deposits amount to more than \$379,000. There are 6,000 people living in the county. To apportion these deposits out to the population it would provide over \$62 for every man woman and child within its confines. While Powell is a poor county, we rise and ask, from point of bank deposits, can we be excelled?

Wedding Bells.

The Christmas wedding bells have begun to ring. The first to announce the approaching season is the marriage of Mr. Earl Todd, the young son of Mr. Lloyd Todd, of Spout Spring, to Miss Carrie Crow, the youngest daughter of Mr. and Mrs. Albert Crow of the same community. The happy event will take place at the home of the bride this afternoon at 2 o'clock.

Converts Baptized.

The Holy Rollers who have been preaching in the western portion of town on the streets, for the past three weeks, baptized seven converts in the river here Saturday afternoon. They are continuing their meetings.

We are having some more nice hog killing weather.

School Collections.

Miss Gladys Welch sent \$14.80 for Red Cross Chapter to be used on supplies. This was a collection made by her school at Rosslyn, Ky. This is the first collection of the kind in our county. Miss Welch deserves great credit for such work and splendid results. Other teachers of the county might follow her good example. Rosslyn has good workers and send in splendid collections. Mrs. Burke has remitted \$10.00 from their unit. Vaughn's Mill also is fine in the work. Their Sunday School sent in \$6.00; Clay City Christian Sunday School \$2.00; Clay City Presbyterian Sunday School \$2.07. The other Sunday Schools of the county should follow suit and send in a collection for Red Cross.

Good for Circuit Clerks.

Circuit Clerks will hereafter be paid 25 cents for all jurors summoned whether accepted for service or not. The Appellate Court so decided in a case before them last week. This will be good news for the clerks who are really the poorest paid of any of the county officials.

The Largest Suit.

Suit seeking division of the famous Ashley oil lease, in Powell county was filed Saturday in the Powell circuit court. The Ashley lease, said to be the most prolific oil field in Kentucky, is estimated worth \$5,000,000. Heirs of Frank Ashley contend their own undivided one-eighth interest in the whole of J. M. Ashley tract of land by inheritance. John M. Ashley was alleged in the petition to have received \$360,000 for the royalty alone on the tract.

The suit was filed in Powell circuit court Saturday before Judge W. R. Shackelford, by W. N. Cope, a Lexington attorney and C. W. Napier, of Hazard, lawyers for the heirs of the late Frank Ashley.

The petition charges that the lease was obtained from John M. Ashley, who received \$360,000 from the purchasers, and it is alleged that the heirs of Frank Ashley owned a part interest at the time.

The history of the Ashley property, it is said, is that Jordon Ashley, a Baptist preacher, came to Perry county from North Carolina before the Civil War, and settled there. William Ashley, a son of the minister, was reared in Perry county and soon after the war moved to Powell county, where he lived on the land where the oil pool, now known to all oil men was discovered.

William Ashley had eight children, of whom John M. Ashley was the oldest. Frank Ashley was a brother of John M. Ashley and moved back to Perry county and later moved to Knott county. There he married. Three children, Bettie, Floyd and Barby, now all children under 21 years old and more than 14 years old, survived him after his death in 1900. These children are now plaintiffs in the action, which alleges that one-eighth interest in the William Ashley estate was owned by their father.—Winchester Democrat.

Bank Statement.

The statement of the Powell County Deposit Bank, appearing in this issue of the Times, proves their institution to be in a most healthful and prosperous condition. Such an institution is of untold value to any town, thus it is deserving of the large patronage it receives. Mr. O. C. Atkinson, the new young Cashier, is handling the affairs of the bank in the style of a much older man.

Busy Day for Sheriff.

Friday was the last day for the payment of tax to escape the penalty of 6 per cent. So it was a very busy one with the Sheriff at Stanton. They began to come early in the day, and by ten o'clock they had swarmed in until his office looked like a political gathering. It is safe to say that it was the busiest day for the Sheriff of any during the year.

In making your selection of Christmas presents this year, don't forget the Times is a most suitable present to any person who has ever lived in Powell county and can read.

"No News Good News."

Although the failure to receive letters from boys in the army and navy is a most unpleasant thing to relatives at home, the adage "No news is good news" never was more true than at present. The report of every casualty at home or abroad is immediately wired or cabled to officials at Washington, being relayed from there without loss of time to the emergency address of the soldier or sailor affected. It is also at once released for publication in the newspapers. No news of casualties has or will be held up.

No one has received word not to write home; he has been urged, on the contrary, to keep in touch with relatives and friends. The forces in France have at their disposal post cards giving general information in regard to health and the receipt of letters and parcels, which may be dispatched without payment of postage.

Care is also taken to see that mail intended for soldiers and sailors reaches them promptly. Where the regimental and company designation of a seldier is not known it may be secured by application to the Adjutant General's office, Washington. In one week 1,674 letters with insufficient addresses were received at this office. On 1,232 the addresses were completed and they were forwarded, 123 were returned to senders, 58 went to the dead letter office because senders' addresses were not given, and the balance were held with the view that the addresses might be completed later.

CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl...my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me...but I got no better. I got worse and worse until the misery was unbearable...I was in bed for three months and suffered such agony that I was just drawn up in a knot..."

I told my husband if he would get me a bottle of Cardui I would try it...I commenced taking it, however, that evening I called my family about me and knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less...I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life...I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, take Cardui, the woman's tonic, a many days unless I had a change for

(Continued from First Page)

Howard Harrison returned Tuesday from Berea and Lexington where he attended the annual conference of all the farm County Agents of Kentucky. They discussed various phases of their work.

Prof. and Mrs. Neal Ranson and family, of Clay City, spent Thanksgiving as the guests of the teachers of Stanton College and the evening at the home of the writer with the teachers where a general good time was had.

The writer spent over Sunday at Wolfe Coal, in Breathitt county, and stopped in the beautiful home of Mr. and Mrs. J. L. Oldham. We had the opportunity, for the first time, of going all through a coal mine and seeing the various men at work and how they mine coal. It is indeed an interesting sight.

Two cars of coal were procured by the writer for Mr. Stamper this week and another car will be received by O. C. Arkinson from the Wolfe Coal Company of which J. L. Oldham is President and owner of one-half interest. Stanton ought to be supplied by this time so that there will be no suffering this winter.

We wish to call attention again

to the fact that there are a number of boys in and around Stanton who are not in school and who ought to be in school. Some one, who has the authority, should look after this, and that right away. Of course it is natural for the young boys to not want to go to school but it is to their interest, to the interest of the parents, the interest of the State and of the Nation that they should go. The school laws of Kentucky are strict but not enforced.

Tom Centers is getting a great reputation as an auctioneer. If you don't believe come and hear him at some of the sales he auctions off. He has a strong voice and it is just as good at the close of a strenuous day as it was at the beginning. He auctioned a sale of clothing, at Nada, last Thursday while Rev. J. Kelly Giffen, Troy Profit, Prof. Crafts, of Clay City, and the writer handled the goods and receipts. There will be another at Nada this coming Saturday. These sales are held for the benefit of Stanton College and go toward the feeding of the students at the dormitory. Between \$100 and \$200 are taken in at every sale. With room and board at \$1.50 a week and the high cost of living soaring higher and higher one can easily see that the cost of

feeding hungry mouths at the dormitory must be met in another way and these sales are solving the problems.

The country church, supported by a few families, has been known to grow and prosper under the influence of the community spirit generated through an active, earnest county agent.

Business Habits At Home

SOME men throw business habits aside when they get home. The fact is that the same care and foresight should be used in the home as in the office, store or factory. A checking account should be opened for the household accounts and all money deposited and all expenses paid by check. This plan is simple and greatly assists the home keeper to take care of the income and expenses.

How a Machine Does Our Bookkeeping.

A short time ago we installed a remarkable machine in our Accounting Department—a machine which adds and subtracts, tells the date, keeps our books and gets our monthly statements. It does all this work much faster than any bookkeeper could, and has never been known to make a mistake.

The installation of this Burroughs Bookkeeping Machine means that our accounts will be handled just as rapidly and accurately as those of the largest and most up-to-date banks in the country.

Insures Accuracy

The fact that our figure work is done on a Burroughs is a guarantee to our customers of absolute accuracy in the handling of their accounts. The machine method of ledger posting makes it impossible for a mistake to get past unnoticed. This accuracy insurance alone is important enough to you and to us to justify the use of the machine method, but there are many other advantages.

Better Service to You.

The Burroughs will handle our figure

work in about half the time formerly needed. This gives us more time for other things—time to improve the service in every department of the bank.

Come in and see our machine bookkeeping system in operation. We shall be glad to show you how the machine makes entries in our books, how it automatically adds in one column, subtracts in another and so on, and how it makes mistakes impossible. You will be welcome any time.

We don't want you to think of this bank just as a place to deposit your money, although of course we are glad to have you keep as large a balance with us as possible. It is our desire to render our patrons every service and accommodation that can be reasonably expected of us.

Talk over your business problems with us. It is part of our work to study business and financial conditions, and it may be that we can suggest some ideas that you will find worth while. Please feel free to consult us at any time.
